

NANO NPK LIQUID

8-8-10

Guaranteed Analysis

Total Nitrogen (N).....8.0%
 6.5% Urea Nitrogen
 1.5% Ammoniacal Nitrogen
Available Phosphate (P₂O₅).....8.0%
Soluble Potash (K₂O).....10.0%

Derived from: Urea, Ammonium Phosphate, Ammonium Sulfate, Potassium Sulfate and Potassium Chloride

Nano NPK Liquid is a liquid fertilizer. It provides the primary macronutrients N, P and K to plants. Nitrogen is important for the production of amino acids, proteins, chlorophyll and nucleic acids in crops. Phosphorus is essential for the growth of roots, regulating metabolic activities, mobility of nutrients within the plant, seed formation, and storage and transfer of energy in plants. Potassium helps in water uptake and loss in plants, increases resistances to diseases, drought and cold temperature, and activates numerous enzymes for growth of plants, fruit quality and storability.

Directions for Use:

NOT FOR USE IN ORGANIC CROP AND ORGANIC FOOD PRODUCTION.

Use in accordance with the recommendations of a qualified individual or institution or according to an approved nutrient management plan.
